- English literacy for primary school students in a public school in Tegucigalpa, teaching two 2nd grade students, with weekly lesson plans.

Three Whisks Bakery

June 2022 - Present   Tegucigalpa, Honduras
Founder and Social Media Manager
- Founded a small family business of homemade pastries with a 266% profit.
- Manage Instagram accounts to promote our business.

PROJECTS

Unity Mini-Game (Flappy Bird-Inspired)   Technologies: Unity, C#
Game Developer
August 2024 – Present
- Created a Flappy Bird-style game using Unity and C#, developing game mechanics and object physics to control player movements and obstacles.
- Programmed character controls, collision detection, and scoring logic to replicate the original game experience.
- Designed and optimized the game environment and user interface for smooth gameplay.
- Gained hands-on experience with Unity's game engine, C# scripting, and debugging game functionality.

Responsive Portfolio Website   Technologies: HTML, CSS, JavaScript
Developer
October 2024 – Present
- Developed a responsive personal portfolio website to showcase software engineering skills and projects, designed to adapt seamlessly to various screen sizes, particularly for mobile devices (600px width and below).
- **Key Achievements**:
    - Implemented a flexible layout using CSS Flexbox and media queries to ensure that the website adjusts effectively to different screen sizes.
    - Optimized the design for an intuitive user experience across devices, from desktops to smartphones.
    - Increased portfolio visibility and interaction by incorporating responsive features that make the site attractive and easy to navigate on any device.
    - Available in https://atenaslucia.netlify.app/
